OneStream Solutions Delivered

Consolidations	Guided Reporting
Budgeting	Actor Workspaces
Cash Flow	

Outcomes

Customized Actor Workspaces
Integration of messaging and close calendars for controllers; One-button clicks to navigate to the current close workflow

Automated cash flow
Replaced manual cash flow solution with a more robust, more detailed, easier to maintain, rule-based cash flow

Centralized reporting
Every user can access the exact same reports for the "one source of truth" of the numbers

Enhanced close process
By utilizing the OneStream workflows, enhanced close process, providing structure around each month's close

Dynamic report dashboard
Customized guided reporting to make the solution dynamic for every drop down meaningful for the specific report a user is viewing

Automated data connectors
Scheduled automatic loads from the SAP ERP
